

Hello zookeepers around the world!

The International Congress of Zookeepers (ICZ) is looking to widen our representation, we would like to involve new Steering Committee members who are not connected to one of Steering Members (GACAS, AICAS, AFSA, ABWAK, ASZK, BdZ, Harpij [Members \(iczoo.org\)](https://www.iczoo.org)).

We are looking for zoo-professionals who are able to communicate in English, have regular access to email and would like to devote some of their time working in a diverse team to achieve something for the betterment of the profession.

You would be expected to work on a wide variety of projects and be able to meet deadlines. The Steering Committee has one face-to-face meeting per year and bimonthly email meetings. Zoom meetings or other meetings will occur as required.

Steering Committee members will need to be self-funded through their work, association or independently until funding sources are better secured.

Each term is for a period of three years, with elections in the congress-year. If you do not believe you can hold the position for three years you should not nominate.

How to apply:

Enquiries or applications can be directed to Lex van der Leije (President ICZ) at president@iczoo.org. Applications should include a current resume and a covering letter outlining your strengths and commitment. Applications close on June 30th 2023.

The positions will be voted on by the ICZ Steering Members.
